

The Greater Cincinnati Garden Railway Society was founded in 1990 by a small group of garden railroaders. Today, the majority of our members live within 25 miles of Cincinnati. The GCGRS provides a means for its members to share and enjoy the hobby of large scale indoor/outdoor model railroading with others. Our membership is a wealth of knowledge, willing to share their expertise, and experiences with you. The club, like the hobby of garden railroading is geared toward fun for the entire family. Join today to be part of all the GCGRS has to offer.
